Aroha's voice, sometimes soft and gentle, sometimes strong and powerful has been compared with well loved jazz divas such as Ella Fitzgerald, Bette Midler and Peggy Lee. She performs with four of Nelson most experienced musicians, to create a unique and eclectic mixture of styles, tempos and rhythms.

The combined musical experience of the band is staggering though the majority of that time has been spent performing music other than jazz. Ken, Aroha, Ivan, Warren and Jak all play in pop music or classic rock 'n' roll bands. This provides the band with a huge repertoire as well as the ability to choose popular tunes and create their own smooth jazz version.

The Breez'n repertoire includes many well known jazz standards plus jazz arrangements of popular tunes. Breez'n are looking forward to releasing a fresh batch of popular material played in their trademark Breez'n style.
