Shaken Not Stirred has forged a reputation for show stopping performances. Constant touring over 9 years has produced a polished band that takes the audience on a musical journey filled with excitement and energy.

Sultry vocals from Andrea, a dirty howl from the voice of Chris over hot horn driven grooves, delving into the blues and swing influenced by the greats of 20th century music.

Looking for lovely jazz and blues standards? Then this is not the show for you. Be prepared to be slapped then tickled for the ultimate in aural pleasure.

From the sublime to the ridiculous, (and that is just what they are wearing) this band has the sound of musicians who have been performing together for many years.
